MARIANO LIGHT
1898

Wedding & Events

La nostra Missione è personalizzare la vostra festa con l'obiettivo di rendere il vostro matrimonio unico e impeccabile agli occhi dei vostri invitati! Per farvi un' indimenticabile festa tradizionale Salentina.

Our mission is to personalize your wedding party with the aim of making your wedding unique and flawless in the eyes of your guests! In order to make you an unforgettable traditional Salento feast.

About Us

La Mariano Scenografie Luminose nasce nel 1898, quando Salvatore iniziò la sua attività di 'paratore'. Il suo prezioso patrimonio di esperienza e di valori imprenditoriali passò poi al figlio Eliseo che a sua volta lo ha arricchito e trasmesso a Lucio Mariano che, coniugando tradizione e innovazione, porta ed esporta il marchio 'Made in Puglia' facendo conoscere questa splendida tradizione in Italia e nel mondo intero.

Competenza tecnica e fantasia per un prodotto unico e sempre diverso che la passione immutata di quattro generazioni ha portato nel terzo millennio. Dalla lampada a carburo alla corrente elettrica, dalle lampadine a incandescenza alla luce a LED e ai milioni di colori della RGB: innovazione e tradizione in un'azienda che ha trasformato le Luminarie in vere e proprie architetture e sculture di luce, ammirate in tutto il mondo.

Mariano Scenografie Luminose is established exactly in 1898, when Salvatore begun his work as paratore (decorator). His son Eliseo enriched the precious experience and entrepreneurial values of his father and passed it to Lucio Mariano who, combining tradition and innovation, brings the "made in Puglia" brand to an international level, making this splendid Italian tradition from Italy all over the world.

The unchanged passion of four generations, the technical expertise and imagination for a unique and always different product, was brought to the third millenium. From the carbide lamp to the electric current, form the incandescent bulbs to the Led light and the millions of colours of RGB: innovation and tradition in a company that has transformed the illuminations into real architectures and light sculptures, admired all over the world.
