MARIANO LIGHT
1898

About Us

La Mariano Scenografie Luminose nasce nel 1898, quando Salvatore iniziò la sua attività di 'paratore'. Il suo prezioso patrimonio di esperienza e di valori imprenditoriali passò poi al figlio Eliseo che a sua volta lo ha arricchito e trasmesso a Lucio Mariano che, coniugando tradizione e innovazione, porta ed esporta il marchio 'Made in Puglia' facendo conoscere questa splendida tradizione in Italia e nel mondo intero.

Competenza tecnica e fantasia per un prodotto unico e sempre diverso che la passione immutata di quattro generazioni ha portato nel terzo millennio. Dalla lampada a carburo alla corrente elettrica, dalle lampadine a incandescenza alla luce a LED e ai milioni di colori della RGB: innovazione e tradizione in un'azienda che ha trasformato le Luminarie in vere e proprie architetture e sculture di luce, ammirate in tutto il mondo.

La nostra Mission è quella di creare ambienti unici ed originali con le colorate luminarie in legno, in modo da lasciare alle persone un ricordo della gioia e del calore che riceviamo dalle sfavillanti luci tradizionali delle feste patronali nel Salento.

Mariano Scenografie Luminose is established exactly in 1898, when Salvatore begun his work as paratore (decorator). His son Eliseo enriched the precious experience and entrepreneurial values of his father and passed it to Lucio Mariano who, combining tradition and innovation, brings the "made in Puglia" brand to an international level, making this splendid Italian tradition from Italy all over the world.

The unchanged passion of four generations, the technical expertise and imagination for a unique and always different product, was brought to the third millenium. From the carbide lamp to the electric current, form the incandescent bulbs to the Led light and the millions of colours of RGB: innovation and tradition in a company that has transformed the illuminations into real architectures and light sculptures, admired all over the world.

Our Mission is to create unique and original spatial environments with colorful lights made of wood, in order to leave people with a memory of the joy and warmth we receive from the sparkling traditional lights of the patronal feasts in Salento.

Artigianato

Marianolight migliora continuamente i propri prodotti ed oltre alle collezioni tradizionali barocche esistenti sta realizzando nuovi modelli di reinterpretazione in chiave moderna. Tutte le nostre luminarie sono realizzate a mano in Italia dai nostri artigiani, con materiali di alta qualità, come il legno di pioppo, e con le nostre lampadine tradizionali E14. Le nuove luminarie sono talvolta abbinare a materiali come polycarbonato, metallo e specchio.

Marianolight is continuously improving its products and in addition to the "vintage" collection you will find new designs that reinterpret the traditional baroque designs in a modern way. All our lights are handmade in Italy by our craftsmen, with high quality materials, such as poplar wood, and our traditional E14 bulbs. New designs are sometimes combined with materials such as polycarbonate, metal and mirror.

Scorrano, Italy 1950

Santa Cesarea Terme, Italy 1890

Sogliano Cavour, Italy 1950

San Pietro, Italy 1967

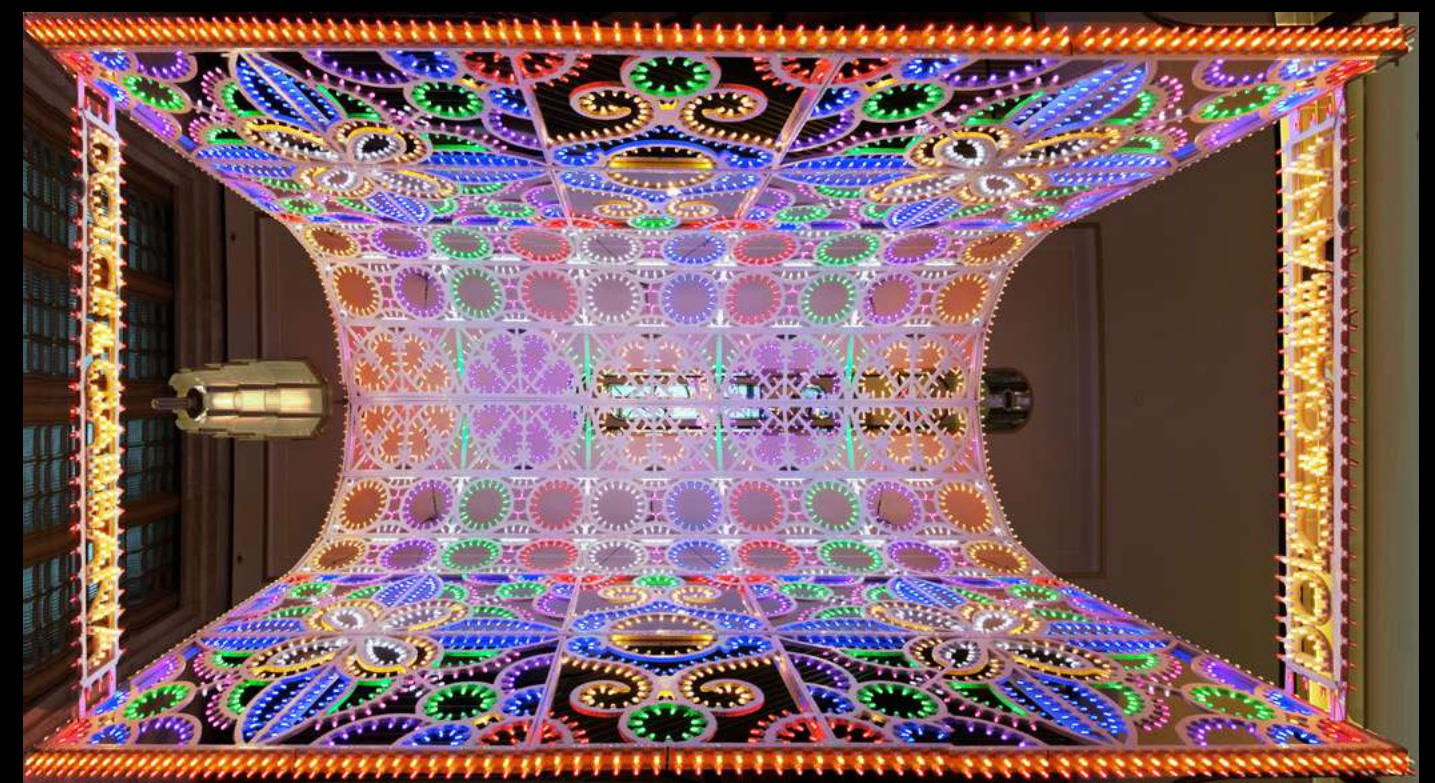

Lecce, Italy 1959

Personalizzare

Oltre alla nostra gamma già esistente offriamo anche un servizio esclusivo su misura. Possiamo modificare il colore del legno, delle lampade o qualsiasi richiesta specifica, possiamo creare un ordine personalizzato in base alle tue esigenze. Per un look ancora più personalizzato, Marianolight può trasformare uno schizzo o un'immagine di un oggetto che hai in mente o, in alternativa, sviluppare disegni su un brief specifico. Insieme a te possiamo creare di tutto, da un pezzo unico ad un'intera installazione.

In addition to our existing range, we also offer an exclusive bespoke service. Whether you would like to change the color of the wood, the lamps or any other specific request, we can create a custom order to suit your needs. For an even more personalized look, Marianolight can transform a sketch or image of an object you have in mind or, alternatively, develop designs on a specific brief. Together with you we can create everything, from a single piece to an entire installation.
